2021 PASSED

HB 407/SB 22 – On-Site Sewage Disposal Systems – Inspection – Licensing

STATUS: PASSED – Effective October 1, 2021 to establish the license

Requires a state license for a Wastewater Property Transfer Inspection. **The license is required for inspections after July 1, 2022.** The Maryland Department of the Environment will develop the program requirements and cost for the license.

HB 104/SB 401 – Landlord-Tenant – Nonrenewal of Lease – Notice Requirements

STATUS: PASSED – Effective October 1, 2021

Extends from 30 days to 60 days the notice that must be given to a tenant when a landlord chooses not to renew a residential lease if the lease was for less than a year. The bill does not change the notice of 90 days for leases of a year or more and exempts small landlords (less than 5 units) from the extended 60-day period if the landlord is being foreclosed upon (the foreclosure exemption does not apply in Montgomery or Baltimore City where the local law already provided for a 60-day notice).

HB 861/SB 691 – Real Property – Landlord and Tenant – Reusable Tenant Screening Reports

STATUS: PASSED – Effective October 1, 2021

Provides that tenants may use “reusable” tenant screening reports if accepted by a landlord. If a landlord chooses to accept a “reusable” tenant screening report, the landlord may not charge a rental application fee. If a landlord chooses NOT to accept “reusable” tenant screening reports, the landlord must notify tenants that such reports are not accepted.

HB 1069 – Water Supply – Private Well Safety Program

STATUS: PASSED

Provides that residential rental property that uses well water must test the well water every three years. If a well is contaminated, the landlord is given three choices: providing a potable water source; remediating the contamination; or providing the tenant with the ability to terminate the lease. Landlords who fail to test their well are subject to a fine up to \$1,000. The original bill would have established point-of-sale requirements for well testing, and a transfer tax increase to fund it.

HB 19 – Residential Real Estate Transactions – Escrow Agents and Trust Money

STATUS: PASSED – Effective October 1, 2021

Clarifies the definition of trust money under the law to ensure that only the earnest money held by escrow agent for the down payment is subject to the required disclosure and not other possible escrows (e.g. holding money to repair a window). The law further clarifies that the disclosure applies to residential property (including unimproved property zoned residential) and not commercial property.

2022 PASSED

HB 203/SB 197—Homestead Property Tax Credit Program – Retroactive Qualification and Calculation of the Credit

STATUS: PASSED – Effective June 30, 2022

Would permit the State Department of Assessments and Taxation (SDAT) to apply the Homestead Property Tax Credit retroactively in situations where a homeowner failed to apply for the credit in the previous year.

HB 807 – Real Estate Brokers, Salespersons, and Associate Brokers – Continuing Education Courses – Verification of Identity

STATUS – PASSED – Effective October 1, 2022

Establishes that Zoom-type continuing education classes may use a written affidavit to verify the identity of class participants rather than showing a picture I.D.

HB 318 – Environment – On-Site Wastewater Services – Regulation

STATUS: PASSED – Effective July 1, 2022

Establishes the Board of On-Site Wastewater Professionals within the Maryland Department of Environment. The Board will regulate individuals engaged in most on-site wastewater services except for inspectors engaged during a property transfer. Property transfer inspectors are already regulated by MDE and must have a license to conduct inspections starting July 1, 2022.

HB 174 – Landlord and tenant – Repossession for Failure to Pay Rent – Registration and License Information

STATUS: PASSED – Effective October 1, 2023

Clarifies that a landlord's compliance with the Lead Poisoning Prevention Program may be an issue of fact in a trial regarding nonpayment of rent.

HB 1110 – Environment – Lead Poisoning Prevention – Elevated Blood Lead Level

STATUS: PASSED – Effective July 1, 2022

Extends the amount of time that the Maryland Department of Environment (MDE) has to lower the elevated blood lead level to the United States Center for Disease Control level. That level is the trigger level at which a child will be notified about an elevated blood lead level and when remediation may be required for a property. Currently Maryland's trigger level is 5 uG/DL (micrograms of lead per deciliter) and will drop down to 3.5 uG/DL starting on January 1, 2024 or whatever level the CDC has set after December 31, 2023. The bill also makes clear that Maryland has one year to set its trigger level after the CDC announces any new trigger levels.
